

What is the pergola made out of?

The pergola is made from reinforced resin and fiberglass with a realistic wood and stone finish. The pergola is styled in a classic column-and-beam arbor design.

Will the pergola withstand extreme weather conditions?

The pergola is weatherproof and designed to withstand most weather conditions. The heavy-duty trellis is supported by 55-lb columns for stability. The stainless steel hardware will not rust.

Can the pergola be secured to the ground?

Yes, it can be securely fastened using brackets on the bottom of each column. We strongly recommend that it is anchored.

Do the columns or beams come in different sizes or colors?

The columns are available as stand-alone pieces in 84" and 36" sizes. The pergola as a whole is sold only with 84" columns. The beams do not come in different sizes. The colors are as shown and cannot be changed.

What are the dimensions for the pergola?

- 99" high
- 171" wide
- 171" deep
- Columns 19 X 19 X 84"
- Top Beams 11 X 6 X 170"
- Support Beams 11 X 11 X 192"

- GRP-T-K2 Support Beams 2ea/Ctn (1 Ctn/set)
- GRP-T-K3 Top beams 1ea/Ctn (5 Ctn/set)
- GRP-T-K4 Hardwar 3ea/Ctn (1ea/set)

How much does each piece weigh?

- 84" Column = 55lbs
- 36" Column = 45lbs
- Top Beam = 47lbs
- Support Beam = 97lbs

How long does it take to assemble?

With a minimum of two people, the pergola takes about an hour and a half to assemble. Assembly can be completed with a single tool. The pergola is easier to put up than any type of gazebo.

Can the pergola be set in concrete?

It can but it may void the warranty. This item is not covered by “acts of God.” In the event of a storm, if the base is secured, the top may still be destroyed.

What is the warranty?

- 1 year warranty on exterior finish and structure.
